-
- Sign placement and dimensions are governed by Article 12 of the *Zoning Ordinance of the City of Prattville*.
 - Sign structure and materials shall comply with the *International Building Code*, 2015 edition.
 - Electrical components and their installation shall meet the requirements the *National Electrical Code, NFPA 70*, 2014 edition.
-

Attach the following items to the application. All applications must include Items 1 and 2.

1. Site plan at a standard engineering scale identifying and locating of all existing and proposed signs on the site.
 2. Elevations at a standard architectural or engineering scale for each proposed sign on the site.
 3. Applications for signs at a height greater than 8 feet shall include foundation and structural details stamped/signed by an Alabama licensed civil engineer. Documents must be originals – no copies.
 4. Proposed signs with lighting or mechanical components must include electrical specifications. A separate electrical permit may be required.
 5. Additional information as needed for the specific installations.
-

Prattville building permits are issued subject to compliance with all requirements of the building code, zoning ordinance and all other pertinent ordinances of the City of Prattville regulating the use and construction of structures. Permits shall be kept at job location of work and available when requested by City inspectors.

I certify that I have read this document and that the information is correct. I agree to comply with all City of Prattville ordinances and state laws related to construction of the sign(s) listed above.
