

**Dear Parent/Guardian(s):**

**Imagine you are a young child and you awaken one night to find your bedroom filling with smoke. Your house is on fire! What would you do?**

**To make sure your child has the skills that can potentially save his/her life, we will be teaching burn prevention and fire safety in class. A key element of this learning process will include a tour at school of the Fire Safety House.**

**This mobile classroom is specially designed to teach children vital burn prevention and fire escape techniques through a fun, safe simulation of common hazards. The Fire Safety House is equipped with a kitchen, bedroom, and living room.**

**The House fills with a nontoxic water based smoke. This realistic environment teaches children to 'crawl low' to safety. A heated door helps children choose the right exit. An escape ladder is used to exit from the bedroom.**

**If your child suffers from asthma, other respiratory conditions or allergies that may be irritated by the nontoxic smoke, please indicate that below before allowing him/her to tour the House.**

*Note: All participants should wear pants/shorts and no-heeled shoes the day of the tour.*

---

\_\_\_\_\_ My child, \_\_\_\_\_ may tour the Fire Safety House

\_\_\_\_\_ My child, \_\_\_\_\_ may not tour the Fire Safety House

\_\_\_\_\_ My child, \_\_\_\_\_ has asthma, an allergy or respiratory condition that may be irritated by the nontoxic smoke and should not be in the House during that part of the program.
